- Educated waitstaff on Toast POS system, and demonstrated proper use
- Aided in establishing and integrating a strategy and communications campaign that increased positive reviews by 90% over the course of a month

RECENT PROJECTS

OmniHospitality (Fullstack Web App)— Developed an all in one POS system for

Waitstaff, Bartenders, & Hosts, to send orders, seat guests, and have everything automated in real time to smooth the flow of the seating process, and client satisfaction

Tech Used: React, Node.js, Express, MongoDB

"StickyPad" (Fullstack Web App) – Users can log in to their profile securely and find their list of notes. They can add new notes through an input, which they can then edit or delete in their own personal profile

Tech Used: Express, MongoDB, Node.js, Bootstrap

"Collector's Cove" (Fullstack Web App) – Clients will be able to

add, and upload their board games by name, and date acquired, to a database, see others collections, and comment on them, as well as give likes
